How can they trick the brain like that?

8:45am, Tues, Jan 31, 2017 by Val

our consciousness is based on 'awareness'

8:46am, Tues, Jan 31, 2017 by g

How does it cause pain? Physically?

8:46am, Tues, Jan 31, 2017 by Rachel

pain is a signal, just like sight, sound, etc

8:46am, Tues, Jan 31, 2017 by g

How can he see if he's blind? That doesn't make any logical sense

8:46am, Tues, Jan 31, 2017 by Logan

But doesn't he feel it in his face not his other hand?

8:46am, Tues, Jan 31, 2017 by Nikki

8:47am, Tues, Jan 31, 2017 by g

Do people have blind sight if they're born blind or do they if they lose their vision later on in life.

8:48am, Tues, Jan 31, 2017 by Andrew

How does he know he can see it then?

8:48am, Tues, Jan 31, 2017 by Nikki

no, born blind different

8:48am, Tues, Jan 31, 2017 by g

that's the question: how does he 'see' without seeing

8:48am, Tues, Jan 31, 2017 by g

Why is it that he can see on the white screen but not so much on the bluish screen

8:49am, Tues, Jan 31, 2017 by Diana

So does he feel the motion ?

8:49am, Tues, Jan 31, 2017 by Devette

So he just detects things that aren't there?

8:49am, Tues, Jan 31, 2017 by Nikki

Wouldn't his eyes kinda "glaze" over if he was blind?

8:50am, Tues, Jan 31, 2017 by Logan

Can blindness be cured in any way?

8:50am, Tues, Jan 31, 2017 by Rachel

So can you lose your sight if you get hit in the back of the head hard enough?

8:51am, Tues, Jan 31, 2017 by Nikki

What happens to the cortex when you're blind from one eye? Does it affect it?

8:52am, Tues, Jan 31, 2017 by Viviana

Why do reptiles see like he does?

8:52am, Tues, Jan 31, 2017 by Nikki

What causes you to lose your eyesight? Is it something that happens in your brain or your eye?

8:52am, Tues, Jan 31, 2017 by Logan

So is blind sight a good thing?

8:54am, Tues, Jan 31, 2017 by Diana

How does that work? She sees fine but can't draw the star as it is?

8:55am, Tues, Jan 31, 2017 by Diana

So she just doesn't care about the other side?

8:56am, Tues, Jan 31, 2017 by Nikki

Can her brain only process the right side of things she sees and remembers?

8:57am, Tues, Jan 31, 2017 by Andrew

What can happen if one of the 30 areas of seeing are damaged?

8:58am, Tues, Jan 31, 2017 by Diana

Due to the stroke it removed her left radar ? So what is it that she can't do because of the besides only drawing things with a right side

8:58am, Tues, Jan 31, 2017 by Rachel

Where does all this left over information that the brain doesn't get go?

8:58am, Tues, Jan 31, 2017 by Armendariz

I wonder, is there a form of "visual neglect" for the body itself and not just the eyes, like your body neglects the entire left or right?

8:59am, Tues, Jan 31, 2017 by Logan

So from her having her stroke she can't write on left that doesn't make sense how?

8:59am, Tues, Jan 31, 2017 by Val

Why is the brain not protected enough so these things don't happen to ur sight?

9:00am, Tues, Jan 31, 2017 by Nikki

Why does that happen?

9:00am, Tues, Jan 31, 2017 by Armendariz

What makes him think his parents are imposters?

9:01am, Tues, Jan 31, 2017 by Viviana

Why is he confused about his parents

9:01am, Tues, Jan 31, 2017 by Diana

There's only so much protection that can happen. I mean we can't be impenetrable.

9:01am, Tues, Jan 31, 2017 by Logan

He lost his arm but he doesn't have the phantom syndrome ?

9:02am, Tues, Jan 31, 2017 by Nikki

Why does he think his parents are not his parents sometimes?

9:02am, Tues, Jan 31, 2017 by Alondra

Does he forget who he is?

9:03am, Tues, Jan 31, 2017 by Nikki

Does David's situation have something to do with the way his brain processes faces and or familiar places.

9:03am, Tues, Jan 31, 2017 by Andrew

What is effected in his brain to believe this?

9:03am, Tues, Jan 31, 2017 by Armendariz

What part of the brain is affected for this to happen?

9:04am, Tues, Jan 31, 2017 by Viviana

Why would he not remember anything ?

9:04am, Tues, Jan 31, 2017 by Val

Why do they think it's not but it looks like it is that person or pet?

9:04am, Tues, Jan 31, 2017 by Nikki

Why does he think everything's fake?

9:04am, Tues, Jan 31, 2017 by Diana

What is it that causes his doubt and the thought of his parents being imposters

9:05am, Tues, Jan 31, 2017 by Rachel

What if he's telling the truth?

9:06am, Tues, Jan 31, 2017 by Armendariz

links between the parts of the brain

9:06am, Tues, Jan 31, 2017 by g

So did eh damage his amygdalla cuz he becomes aroused by his mom?

9:06am, Tues, Jan 31, 2017 by Nikki

How do his parents deal with him like that?

9:07am, Tues, Jan 31, 2017 by Nikki

So he doesn't have no emotional connections with close ones?

9:07am, Tues, Jan 31, 2017 by Devette

Is there a way to fix his disability?

9:07am, Tues, Jan 31, 2017 by Armendariz

Is it possible to ever fix the damage that has happend to David's brain.

9:08am, Tues, Jan 31, 2017 by Andrew

Does he recognize his own self if he were to look in the mirror?

9:09am, Tues, Jan 31, 2017 by Nikki

How does it fix itself?

9:10am, Tues, Jan 31, 2017 by Nikki

Does he still have this problem every now and then?

9:10am, Tues, Jan 31, 2017 by Armendariz

So it's just temporary?

9:10am, Tues, Jan 31, 2017 by Logan

How do seizures trigger?

9:11am, Tues, Jan 31, 2017 by Diana

Wont that cause more brain damage

9:11am, Tues, Jan 31, 2017 by Nikki

What leads to the constant seizures?

9:12am, Tues, Jan 31, 2017 by Armendariz

What is it that causes the seizures to last longer ?

9:12am, Tues, Jan 31, 2017 by Rachel

What is he thinking when this happens?

9:13am, Tues, Jan 31, 2017 by Armendariz

Why does he think he's god?

9:13am, Tues, Jan 31, 2017 by Nikki

In a seizure the neurons misfire, what is the proper firing rate of neuron during regular brain activity.

9:13am, Tues, Jan 31, 2017 by Andrew

Wouldn't those seizures cause some damage?

9:13am, Tues, Jan 31, 2017 by Logan

Can't they fix people like him so they don't have seizures

9:14am, Tues, Jan 31, 2017 by Nikki

Are seizures dangerous? Like in a way that can cause death?

9:14am, Tues, Jan 31, 2017 by Diana

Can't you stop seizures by doing something to the left side of your brain?

9:14am, Tues, Jan 31, 2017 by Viviana

Why is he crying?

9:14am, Tues, Jan 31, 2017 by Nikki

Can't they stop the seizures by cutting the lobes apart?

9:15am, Tues, Jan 31, 2017 by Nikki

What medication does he take for this?

9:16am, Tues, Jan 31, 2017 by Armendariz

Are seizures genetic or can a seizure happen to anyone at any time?

9:16am, Tues, Jan 31, 2017 by Andrew

Do seizures reset your brain ?

9:16am, Tues, Jan 31, 2017 by Rachel

He's not right in his head tho why can't he see he's wrong?

9:16am, Tues, Jan 31, 2017 by Nikki

Aren't there different types of seizures for different conditions?

9:17am, Tues, Jan 31, 2017 by Logan

Is temporal epilepsy common?

9:18am, Tues, Jan 31, 2017 by Logan

Why do they let him walk around alone what if he has a seizure

9:18am, Tues, Jan 31, 2017 by Nikki

Why can't he talk about himself after he had seizures?

9:19am, Tues, Jan 31, 2017 by Armendariz

Can you limit the neuron pathways to stop the seizures? But blocking them or something?

9:20am, Tues, Jan 31, 2017 by Armendariz

Are seizures more common in younger or older people

9:20am, Tues, Jan 31, 2017 by Rachel

Why is everything like a grain of sand so important to him?

9:20am, Tues, Jan 31, 2017 by Nikki

Is he the only one like that or is there more?

9:20am, Tues, Jan 31, 2017 by Nikki

Is what he has a common thing? Or is it rare?

9:21am, Tues, Jan 31, 2017 by Viviana

So his seizures cause over emotion?

9:22am, Tues, Jan 31, 2017 by Devette

So he likes having the seizures?

9:22am, Tues, Jan 31, 2017 by Nikki

What causes his religious experiences, how does he see the world fall into place ?

9:23am, Tues, Jan 31, 2017 by Rachel

If he is right, why does he believe seizures is a way to get his visions?

9:23am, Tues, Jan 31, 2017 by Armendariz

I don't think he likes them but he feels that the "key" can only be obtained through his seizures

9:23am, Tues, Jan 31, 2017 by Logan
