**lungs**

1:21pm, Weds, May 9, 2018 by brannddyyy

**fill 90% of the entire rib cage**

1:22pm, Weds, May 9, 2018 by brannddyyy

**The diaphragm moves down when we breath in**

1:23pm, Weds, May 9, 2018 by Leeann

**So is it bad if people shave their nose hairs since it traps dirt?**

1:25pm, Weds, May 9, 2018 by Raena

**Is 1 pint of air an average?**

1:27pm, Weds, May 9, 2018 by Miguel

**We pump a pint of air out in each breath**

1:27pm, Weds, May 9, 2018 by brannddyyy

**We have 7 million alveoli**

1:31pm, Weds, May 9, 2018 by brannddyyy

**When exercising to the point of exhaustion, the oxygen is stripped from the blood stream until it reaches back to the lungs**

1:31pm, Weds, May 9, 2018 by Alicia

**They're like donuts without a center hole**

1:34pm, Weds, May 9, 2018 by Fern

**Blood cells\***

1:34pm, Weds, May 9, 2018 by Fern

**Interesting that the guy can produce enough energy to light up a light bulb for 12 hours**

1:35pm, Weds, May 9, 2018 by Miguel

**The gas we exhale is much richer than the surrounding air**

1:36pm, Weds, May 9, 2018 by brannddyyy

**After 2mins with out additional oxygen coming into the lungs, causes one to blackout**

1:37pm, Weds, May 9, 2018 by Alicia

**This is why you cannot die from running; you will pass out first and breathe**

1:38pm, Weds, May 9, 2018 by MsGardner

**This is also why you can't hold your breath til you die; you'll pass out and breathe**

1:38pm, Weds, May 9, 2018 by MsGardner

**The lower you go into the water the higher the pressure is on the body.**

1:39pm, Weds, May 9, 2018 by Leeann

**When you pass out and then start breathing again is it a natural reflex from the lungs? Or the brain?**

1:40pm, Weds, May 9, 2018 by Raena

**how long can blood cells survive without oxygen**

1:42pm, Weds, May 9, 2018 by Miguel
